LEARNING COMMONS

The Aims Learning Commons features open-use computers, the library collection, and free tutoring assistance. We also offer group study rooms, casual seating, and a reading room. The friendly staff is knowledgeable in academic, library, career, and technical areas. We also offer various student workshops throughout the semester.

- › Greeley campus: College Center, Room 270
- › Loveland campus: Room 105
- › Fort Lupton campus: Room 107

Hours and contact information available at:

www.aims.edu/student/learning-commons/hoursloc

PRINTING AND SCANNING

Aims uses a print management system called GoPrint, which supports campus-wide efforts to go green and helps us track individual usage and allocate costs for print services on campus. Students are allotted a \$5 printing quota of printing each semester (10 cents per page for black and white and 50 cents for color). If not used, the amount will accrue from semester to semester.

GETTING STARTED WITH CAMPUS TECHNOLOGY

FALL
2015

WELCOME TO AIMS!

Our college boasts four campuses with a wide variety of technology to support your learning needs. The IRM office is the central IT provider for Aims Community College, IT provides educational technology tools, wireless network access, innovative classroom technology, and much more.

myAIMS

www.aims.edu/about/departments/it/myAims/index.php

myAims is your one-stop-shop for accessing vital information about Aims. This includes general policies and procedures, enrollment and financial aid information, links to digital library resources, access to Aims Online, and your Aims email account.

NETWORK CONNECTIVITY

www.aims.edu/about/departments/it/wireless/

Aims provides wired and wireless connections for all students. Whether in class on one of our campuses or out on the promenade, stay connected to the Aims network. Connect to the "AIMS-SECURE-STUDENT" wireless network by using your myAims username and password.

MESSAGING & COLLABORATION

Aims provides Google-powered communication and collaboration tools to its campuses. Take advantage of Google Apps, including Gmail, Contacts, Calendar, Chat, Hangouts, Drive (Docs), Sites, and more to help you collaborate in the classroom and beyond.

SOFTWARE

<https://aims.onthehub.com/>

On The Hub is Aims' software distribution site that allows you to purchase software at significant discounts. Among the many software packages available are Windows, Adobe Creative Cloud, and Microsoft Office. Make sure you register with your aims.edu email address to ensure you get the proper discounts. Log in to check out everything that's available!
