- **Notes:**

Costs are subject to change without notice.

*These exam fees apply to training conducted under FAR Part 141. Exam fees for training conducted under FAR Part 61 are significantly higher. Currently, these fees range from \$350.00 to \$700.00 for a final check ride conducted by an FAA Designated Examiner.

**These costs are for estimated average times; FAA minimums may be lower. Additional costs will be incurred if above-average times are required to meet flight proficiency standards. Consult with an aviation advisor for information about average times.

Block rate – A student who purchases a 10-hour block of flight time in advance will qualify for a discount.
