## Databases & Article Search

### Using Academic Search Premier

#### What is Academic Search Premier?

Academic Search Premier provides access to full-text articles and citations for a wide range of subjects. It is one of the main databases to use to locate magazine articles.

#### On Campus Access

- Go to the library home page at <http://www.aims.edu/kieferlibrary/index.html>
- Click on **Databases & Article Search**.

#### Off Campus Access

- Go to the library home page at <http://www.aims.edu/kieferlibrary/index.html>
- Go to **Off Campus Access** on left side of screen.
- Type in your Web Services username and password.
- Select **Academic Search Premier**.

#### Finding Articles

- Type your search terms in the **Find** box.
- Click **Search**.
- Click on article title from the list. You may have the choice to view it as a web page (html) or in a PDF format. The PDF format is a scanned copy of the article as it originally appeared in print.
- You can then either copy text from the article into a MS Word document, print the article, or email the text to yourself.
- You may limit your search
  - to **Full Text** and/or to **Scholarly Journals**. A scholarly journal is more academic and technical. Popular magazines and newspapers are not scholarly journals.
  - check the Full Text box and/or Scholarly Journals box under the **Basic Search** Find box.
- For more options in searching, click on the **Advanced Search** tab at the top of the page.
