a. Medical and Dental Insurance Benefits for FY 2007-08
   Dr. Liddell reminded the Board that the presentation of the Benefits proposal was an annual agenda item. Chief Business Officer Carol Hoglund told the Board that health premiums increased by only 2.5 percent, while dental premiums actually decreased. The Benefits subcommittee recommended that the Aims share of premium should be 81 percent for employee only and 72 percent for the family plan. This would mean that the impact for employees currently in these categories would be minimal. The greatest impact would be for those moving from employee-plus-one to family status. Ms. Hoglund reminded the Board that they must act on the proposal at the April meeting to meet the enrollment deadline.

   ON MOTION OF SANDY NEB THE BOARD UNANIMOUSLY VOTED TO APPROVE THE MEDICAL AND DENTAL INSURANCE BENEFIT PLAN AS PRESENTED.

   ON MOTION OF BETH BASHOR, THE BOARD VOTED TO APPROVE THE RESCESSION OF POLICY 5-500 (FIRST READING)

   ON MOTION OF BETH BASHOR, THE BOARD VOTED TO APPROVE POLICY 5-550 AS PRESENTED (FIRST READING)

e. Proposal to Review Trustee District Boundaries
   Dr. Liddell reminded the Board that a request had been brought to consider researching realignment of trustee district boundaries. Board President Ken Nickerson noted that by state law, the Board is responsible to establish trustee districts and recommended that the Board should get assistance and guidance to examine whether the demographics in the area have changed sufficiently and to understand what options exist in regards to the trustee districts, adding that it probably couldn’t be done in time for this year’s election.

   ON MOTION OF RICHARD BOND, THE BOARD VOTED TO ASK DR. LIDDELL TO EMPLOY AN APPROPRIATE PERSON TO CONDUCT THE
RESEARCH.

g. Early retirement Option

Dr. Liddell told the Board that during the budgeting process, the college is always looking for ways to be more efficient in funding. Aims is in good financial shape, so this proposed program should not be viewed as financial exigency of any kind. It should be viewed as strictly voluntary for participants and a way for Aims to find the most cost effective way to do business. She then asked Dr. Richard Wood to explain the program.

Dr. Wood began by explaining the parameters of the proposed Early Retirement buy-out, noting that two groups of employees would qualify: those 60 years or older with 5 years service to the college or employees with 15 years service no matter what their age might be. Eighty-six people fit into one of those two categories, but at this point, we don’t know how many will take this option. Some could be immediately eligible for retirement from PERA. If the Board approves, informational meetings will be set up, with invitations going to all individuals on the list. Each of these employees may also request a private meeting with Dr. Wood to discuss details. Employees with up to 15 years of service to the school would be paid out at ½ of current salary. For every additional year of service over 15, the employee would receive an additional 5 percent of their income up to a total of 100 percent.

Dr. Liddell stressed that it was important to have the program completed by June 30, adding that acceptance of the offer would be strictly voluntary and that the college can afford to keep everyone.

Mr. Nickerson asked if there would be written guidelines. Special Assistant to the President for Legal Issues, Sandra Owens addressed preliminary questions with the following statements:

- The college would not be exclusionary if someone took the buy-out but wanted to apply for another job here. They could not, however, come back to their old job at their old salary and there would be no preferential treatment. There wouldn’t be a period of exclusion unless the Board wants to include that in the agreement.
- There might be an option to hire some people back on a part time basis, as new hires depending on their PERA status. This option might help in certain vital positions, while replacements are hired.
- This offer is only for full-time benefited employees with full-time years.
- Employees who take this offer could contract for health insurance through COBRA for 18 months and then they would need to make their own arrangements.
- This would be a one-time offer. If an employee doesn’t take the offer at this time, they should not expect a similar offer next year.
A Trustee requested that the written agreement be presented before the Board voted. Dr. Liddell asked that the Board approve the plan in principle so that eligible employees could be contacted to get their reaction and allow them time to make a decision. She added that Sandra Owens will then prepare the written agreement for the Board’s examination, adding that it might be beneficial to call a special meeting to expedite Board action and allow employees to get paperwork signed in time for a June retirement.

**ON MOTION OF RICHARD BOND, THE BOARD VOTED 4 TO 1 IN FAVOR OF THE CONCEPT OF AN EARLY RETIREMENT BUY-OUT AND REQUESTED FURTHER DETAILS ON THE AGREEMENT BEFORE FINAL APPROVAL.**

Dr. Liddell asked if there was a preference that employees would not be able to reapply as a new hire. A Trustee suggested that there should be a minimum of one year before any retiree could reapply. Ms. Owens mentioned that it could be a question of legality to restrict employability, but she will research and advise the Board at their next meeting.
