a. Foundation Update – Julie Buderus
   The Board had no questions on the Foundation update

b. Technology Update – Gary Bardsley
   Dr. Bardsley presented a brief summary of the Aims technology security plan developed in response to HB 1157. The plans are due to David Skaggs at the Colorado Commission for Higher Education by July 15.

c. Construction Update – Don Plant
   Mr. Plant addressed the Board answering questions on the construction update included in the Board packet:
   - On change order #1004, PCO#1020 Mr. Plant explained that the weir wall by the pond was redesigned to follow new requirements and to prevent flooding of the new building.
   - The credit of $308,000 in Change Order #1005 to remove wooden lab cabinetry from the contract with Alliance. Aims has now contracted directly with millwork supplier.
   - In Beaty Hall Change Order #2005, PCO#2025, the masonry wall at the south end of the lobby was modified to ensure structural integrity.
   - The boilers in Beaty Hall will be replaced as reflected in Change Order#2005, PCO#2043. When the original plans were drawn, the boilers were not included, in an attempt to keep costs down. Now it is obvious that it is more economical to replace them during reconstruction.
   - A trustee asked about the schedule for the aviation building. Ms. Hoglund answered that the building is on schedule and should be ready for occupancy by August 17.

d. Demonstration of Interactive Catalog – Jared Fiel
   Director of Public Information Jared Fiel demonstrated the interactive catalog, indicating that it has now been formatted on a full-sized CD. He added that audio reader software makes the catalog accessible for the vision impaired. A Trustee asked if the interactive catalog had been reviewed by students. Mr. Fiel answered that focus groups will soon be initiated and will be used to improve future versions of the catalog, as well as the website.

She offered to bring the Board a report on the positions that have been cut.
