I. Call to Order
The meeting was called to order at 2:36 PM by Board Secretary Sandy Neb, as Board President Beth Bashor was not present in the meeting room. Other Board members present included Richard Bond, Mike Geile and Walt Richter. College President Dr. Marsi Liddell was also in attendance. Beth Bashor attended by phone.

II. Additions/Deletions to the Agenda
THE BOARD ACCEPTED THE AGENDA AS PRESENTED.

III. Citizen Participation
Bob Vangermeersch, resident of Fort Collins, passed out information and addressed the BOT regarding the College Enrichment Option program in Loveland, mentioning the following issues in his request for the college to continue the CEO program.

- Without the CEO program, there would be no outreach to Loveland community
- CEO students require less time and effort from the instructor and the college, so the cost of having them in class is less.
- The Life Long Learning program, which is intended to take the place of the CEO program, is only offered in Greeley and costs 6 to 8 times more than the tuition for the CEO program. The current CEO students are on fixed incomes and have said that they will not register for regular classes or travel to Greeley.
- While the college states that all students should pay tuition at the same rate, there are already a number of groups that pay different tuition rates.
- The senior students add to the class in experience and different point of view. Some of the instructors ask the CEO students to help in the class.

Mr. Vangermeersch requested the Board add this item to their agenda and vote to continue the program.

Sandy Neb thanked Mr. Vangermeersch for his comments, but stated that when issues are brought before the board during citizen participation, it wouldn’t be prudent for the board to vote that day. She added that the Board would take the issue under advisement and that Dr. Liddell will communicate their decision.

IV. President’s Report – Dr. Liddell
a. Financial Update – Mike Kelly
Mike Kelly distributed the final audit statements to the Board and noted that the only change from the draft, was an update on land for sale to indicate current status. Trustee Mike Geile affirmed that this was a clean audit with no comments or
findings. There were no further questions for Mr. Kelly.

b. Information Resources Management Update – Gary Bardsley
The Board thanked Dr. Bardsley for his excellent report. A Trustee asked if there is funding available to replace the outmoded technology mentioned in the last paragraph. Dr. Bardsley replied that the college has instituted a life cycle for technology, adding that this year it was necessary to defer some items until the next budget cycle, but that technology needs are always considered. Another Trustee commented on the telephone systems in Loveland and Fort Lupton. He asked if the Greeley campus also has direct 911 access and if the calls go through campus security. Dr. Bardsley told the Board that any 911 call goes to the appropriate emergency service provider (Weld Sheriff, Loveland Police, etc…) He added that it will soon be possible for a duplicate notice of 911 calls to be sent to Aims security. The final goal is to be able to identify phone location for emergency calls.
