Aims District Board Meeting

I. Call to Order
The meeting was called to order at 2:39 PM by Board President Beth Bashor. Other Board members present included Mike Geile, Sandy Neb and Walt Richter. College President Dr. Marsi Liddell was also in attendance. Trustee Richard Bond was excused from the meeting.

II. Additions/Deletions to the Agenda

ON MOTION OF WALT RICHTER, THE BOARD UNANIMOUSLY VOTED TO ACCEPT THE AGENDA AS PRESENTED. DURING CITIZEN PARTICIPATION, HOWEVER, THE BOARD REQUESTED THAT AN EXECUTIVE SESSION BE HELD.

III. Citizen Participation
Two neighbors from along the North property line of the Greeley Campus, Carrie Bedell and Tom Fisher, addressed the Board to share their disappointment with the outcome of the tree trimming along the property line. They explained that after the last board meeting, all parties came to an agreement regarding the trimming and possible removal of the trees. While trimming of trees was required, the neighbors do not feel that the severe trimming of lower branches completed by Wright Tree Service conforms to the written agreement. In light of Aims not complying with the agreement Ms. Bedell asked the board to pay the legal fees incurred by the home owners. Tom Fisher expressed that while the homeowners know that Aims has the right to cut down the trees, an agreement was reached and the result didn’t conform to the agreement.
College President Marsi Liddell asked Carol Hoglund to summarize the issue. Ms. Hoglund told the board that there had been significant power outage issues on the Greeley campus. The College sought advice from Xcel Energy, who stated that of the three poles on north side of campus, two belonged to Xcel and one to Aims. The College first installed mitigation measures on the poles to prevent squirrels but when the problem continued, Xcel representatives suggested that the trees be removed. The College informed the neighbors, who protested the removal, so the College offered to install a fence, which also did not meet with their approval. At this point, the College ordered a survey of the property line and discovered an encroachment. According to the final agreement between Aims and the neighbors, the College trimmed the trees, first with a safety cut by Xcel contractors to take the trees to a level 10 feet below the power line. Next, an Aims contractor trimmed to tree form rather than shrub form and at the same time, trimmed the deadwood and pruned trees away from the roadway to abate hazards. A total 10 trees were removed, leaving 115 trees standing. A Trustee asked Dr. Liddell to inform the neighbors when they could expect a response to their request. Dr. Liddell suggested an executive session to receive legal counsel on the issue from Sandra Owens.
