IV. Consent Agenda
   a. Minutes of the December 11, 2014 District Board Meeting

ON MOTION OF MIKE GEILE THE BOARD UNANIMOUSLY APPROVED THE CONSENT AGENDA AS PRESENTED.

V. President’s Report – Dr. Liddell
   a. Financial Update – Dan Erbert
      o Mr. Erbert noted that a section has been added to the Budget to Actual part of the report, noting that it most closely reflects the information the college reports to IPEDs.
      o A Trustee asked why fees and other charges still remain 74% outstanding. Mr. Erbert explained that it is related to the study that the VA was conducting on the helicopter program, which was recently completed.

   b. Administrative Services Report – Robert Cox
      o Mr. Cox reviewed highlights of the report for the year.
      o Aims has 41 restricted funds accounts, which are primarily from grants. The Aims Foundation has about 130 accounts, which are mainly endowment accounts.
      o The Cashier’s office focused on processing IRS 1098-Ts in January.
      o Aims processes about $16.4 million in financial aid refunds onto students’ Campus Cards. An additional $592,000 has been issued to students in paper refund checks. The college is considering replacing student IDs with the Campus Card.
      o The Cashier’s office oversees e-billing for students’ payment plans.
      o Accounts Payable processed 11,153 invoices and 6,170 checks in 2013.
The debit card creates a large volume of activity to that account. Last year, 5,666 entries were processed through the general fund.

Payroll is busy working with HR on issues related to compliance with the Affordable Care Act, as well as their regular payroll duties.

Purchasing oversees competitive bidding, the procurement process, the copier machines, surplus property and fixed assets. This department also includes central receiving and mail services.

Office of the Budget is run by Dan Erbert and includes issuing state reports related to the budget, oversight of the Bookstore and Reprographics.

The Bookstore served 27,000 customers and had $1.8 million in sales last year.

Reprographics includes copy and printing services.

Facilities and Operations includes construction and maintenance, utilities, and about $16.5 million in capital projects.

Mr. Cox thanked his entire Administrative Services team for their excellent work.

A Trustee asked about a stated goal in the Bookstore’s report related to outsourcing. Mr. Cox stated that while the college is looking into the possibility of outsourcing the Bookstore, the employees of the Bookstore have stated that their preference would be to remain Aims employees.

A Trustee thanked Mr. Millsapps and his team for keeping the campus safe and beautiful.

A Trustee asked if Heartland Payment Solutions, which oversees the Aims Campus Card pre-paid credit card, is responsible for the money and data on those cards. The information Aims provides to the service regarding the card holder is extremely limited and highly encrypted. They are Discover cards, and as such protected by the FDIC.

c. Sabbatical Report – DeLynn Anderson

Dr. Liddell introduced DeLynn Anderson, who presented results from her sabbatical taken in fall 2013.

Ms. Anderson thanked the Board and Dr. Liddell for the opportunity to take the sabbatical. She has been teaching at Aims since 2001. Her sabbatical goal was to develop an Excel textbook that would help to train students in all of the skills they need to meet employers’ needs. She was inspired to do so after she found a dearth of excellent Excel textbooks on the market.

Aims students taking Excel this semester are using the book on a beta basis. Professor Anderson is asking students to provide their input on the assignments, and she is updating the material as she goes along with this beta version. She plans to complete the edits and secure publishing of the text this summer.

Ms. Anderson reviewed the chapters of the books for the board. She noted that it is quite ambitious to teach in one semester, but she hopes that students will keep the book and use it as a reference throughout their college and real-world careers.

d. President’s Executive Summary

Dr. Liddell gave kudos to the leaders of the Writers’ Community project, who received an award from the Two Year College English Association. They are
Holly Hartwick, Rebecca Sailor and Kendra Griffin. Kim Joiner received the Live United award from the United Way of Weld County and will be recognized at their Celebration of Excellence on March 13. United Way of Weld County also thanked the college for our involvement in Weld Project Connect, as well as the successful employee fundraising campaign. Jan Stapleton attended a luncheon sponsored by the Colorado Community College System recognizing Faculty of the Year recipients. Jan was selected for the honor by her colleagues in the ACEA.

- Dr. Liddell noted that we are in the midst of a legislative session and brought a few bills to Board’s attention. Senate Bill 1 is the budget bill, and it proposes to add $100 million to the budget for higher education this year. Dr. Liddell said we are thankful for that. Along with that proposal, Lt. Gov. Garcia asked that colleges keep tuition increases below 6%. Several Aims students wrote and testified during the session in support of Aims Sen. Bill 1, including Jenna Oliver’s daughter, Michali, who was offered an internship with Sen. Mike Johnson. This will be set up through Aims’ new internship program, Worksource.

- Senate Bill 4 allows community colleges to offer a Bachelor’s of Applied Science. It is moving successfully through the legislature.

- House Bill 1154 is causing some aggravation because it has an $84 million fiscal note attached to it. It asks the Community College System to pay adjunct and full-time faculty the same amount. It sounds equitable, but it diminishes tenure, allows the state to authorize teaching load and seniority. It has passed out of State Affairs, and is now in appropriations, but our lobbyists don’t think it has legs because of the huge fiscal impact. Dr. Liddell believes it will be Postponed Indefinitely during this session, but we will likely see the topic of equity come forward in the future.

- The last Aims Strategic Plan was in place for 2010-2013 and was developed during a time of state budget cuts and leaner budget projections. We now have more leeway in financial stability. Aims is now undergoing the next Strategic Plan, starting with a SWOT analysis (Strengths, Weaknesses, Opportunities, Threats). We will continue to develop ideas and plans during this Friday’s Conversation Day. In March, during a work session, the college will present the progress on the Strategic Plan to the Board.
