Thank you for joining us in celebrating Aims Community College’s 50th anniversary! This past year was not only a reflection of how Aims began, it was one of great vision to the future. In addition to the many 50th anniversary events, Aims developed a new purpose, mission, vision and strategic directions centered around student success (see page 2). We have also begun the development of our 2018-2023 strategic plan. So, needless to say we’ve had a very busy year. I’m excited to share with you some of what we have accomplished in this year’s annual report.

In the fall of 2017, Aims opened a new three-story Applied Technology and Trades Center along with the renovated Welding building in Greeley. These facilities total more than 72,000 sq. ft. and house our applied technology programs, including Engineering Technology – Computer Aided Drafting (CAD) and Global Information Systems (GIS); Construction Management; Industrial Technology and Oil and Gas Technology, and our welding program. The new building will help support our community because it will give our students the training they need to prepare for high tech jobs right here in Northern Colorado.

Aims also participated in an economic impact study that looked at the value of Northern Colorado public colleges and universities. Aims Community College, Colorado State University, Front Range Community College, University of Northern Colorado and their entrepreneurial activities and students added $2.4 billion in income to Larimer and Weld Counties’ economy, approximately 9.6 percent of the region’s total gross regional product (GRP) during fiscal year 2015-2016. For context, the impact from Northern Colorado Public Colleges and Universities (NoCoPCU) is almost twice as large as the entire Health Care and Social Assistance industry in the region.

And for the seventh year in a row, the Aims Board of Trustees approved freezing tuition rates, making Aims one of the most affordable colleges in Colorado! We are continuing to focus on student access and success, and this report highlights the new CARE program that supports at-risk students.

Aims has proudly educated our community for 50 years. I am most proud of the passion, commitment and creativity of Aims employees, and I so much look forward to implementing our new strategic plan for 2018-2023, which will continue to guide Aims in a positive direction!

“This past year was not only a reflection of how Aims began, it was one of great vision to the future.”

It’s because of our dedicated faculty and staff, high quality, comprehensive programs and services, financial stability, affordable tuition, beautiful campuses and a culture that cares about its people, both those who work here and learn here, that we have such a strong and positive reputation. Our community partners make us complete with their support in creating a productive and meaningful workforce in Northern Colorado.

With gratitude,

Dr. Leah L. Bornstein
CEO/President
Aims Community College

Aims Community College is an equal opportunity institution. The College prohibits discrimination in its practices, programs, and activities on the basis of age, race, color, religion, creed, gender, national origin, sexual orientation, or disability and is committed to maintaining an environment free from sexual or other harassment and retaliation.

“50 years of PROUDLY educating our FUTURE”
Students at Aims have access to a college education at the lowest tuition rate in Colorado for Weld County residents. In fact, a student could go to Aims full time for two years and save enough money to pay for a third year at a four-year university— with money left over!

The process of getting the single mother scholarship was very easy. It helped me enroll Egypt (my daughter) into daycare while I was in school. I thank the family who so generously provided the money to have that sort of help because boy, was it needed. Currently, I’m attending the University of Northern Colorado. I would like to pursue higher education for my master’s and doctoral, and one day I aspire to be president of a college or university.

Est 1967
 Ranked #1
Aims Community College was ranked #1 Community College in Colorado by LearnHowToBecome.org.

We CARE
Coordinated Assistance & Resource Education (CARE) was established to enhance physical and emotional welfare of students and their learning environments.

Change is constant
October 2016 and 2017 visits from the Higher Learning Commission set the stage for college-wide cooperation in continuous improvement.

Saving trees
Electronic system for workstudy hiring and time keeping was implemented.

Keeping it clean
Surgical Technology Department launched its new Sterile Instrument Processing Program which answered a community and industry need.

Setting precedent
The Guided Pathways was established for Allied Health designing a Guided Pathways structure for the college.

Responsiveness
Aims Website was upgraded to a responsive mobile design.

Calling all Aardvarks
The Alumni Connection launched connecting past Aims graduates with their alma mater.

Granting wishes
Grants served over 7,000 students and community members.

Moving in double-time
The Nursing department, along with the University of Northern Colorado’s (UNC) Nursing Department, celebrated their inaugural Nurse Pinning Ceremony. The dual enrollment students achieved 100% pass rate on NCLEX.

... it’s changed my life so much. I was coming from a low point of things and I didn’t know what to do. I feel so much happier now.”
Grady Haugland, referencing the CARE program

Honestly, the only reason I feel I can afford grad school is because of Aims.”
Hannah Pratt, Aims graduate 2014, proud of being an Aims Alum
New in 2017

Building the Future
Applied Technology & Trades Center (ATTC) opens bringing tremendous opportunity to Northern Colorado students, community and business partners in the fields of Engineering Technology, Construction Management, Industrial Technology, Oil and Gas and Welding. The design features instructional labs and classroom space, giving students and instructors the ability to walk the building and read about different type(s) of mechanical, electrical, plumbing and other building systems through cut-away design and open-ceiling environments.

Rosie the Riveter style
The Public Safety Institute launched its first Young Women Xplore Academy which championed the service opportunities for females in EMS and Fire Science.

A security blanket
Aims community college offers new cyber security specialist certificate.

Up up and away
The official arrival of the institution’s first of five 2017 Piper Archer TX. Aviation Director, Eric Himler, and Chief Instructor Alexander Wernsman flew the voyage from Florida to deliver to Aims.

In good hands
Emergency Medical Services (EMS) program receives ambulance from Banner Health.

Aims and this new building can serve as a partner and catalyst for strengthening these educational opportunities for our community’s youth.”
Mark Hout, Aims Board of Trustee on ATTC building ribbon cutting

“Learning about fire fighting from other women has empowered me to pursue my dream.”
Reese Tilton (left), Young Women’s Xplore high school participant

The addition of Aims new fleet of 2017 Piper Archer TX aircraft is going to significantly help our flight students succeed by training in relevant technology that is second-to-none with advanced avionics they will master and utilize throughout their careers in both regional and large commercial aircraft.”
Eric Himler, Aims Aviation Director Blue Angel C-130 Demonstration Pilot

ANNUAL REPORT 2017
Aims has been busy developing its new strategic plan for 2018-2023. When Dr. Leah L. Bornstein became CEO/President in 2015 she conducted a listening tour to gather feedback from employees, students and the community. Based on this feedback, the college was aligned around the new direction. While the college was celebrating its 50th anniversary in 2017, it was also busy working on its new strategic plan and re-accreditation with the Higher Learning Commission. The Aims Board of Trustees developed Aims’ new purpose, vision and mission, which were approved on August 2, 2017. Cabinet and College Council created Aims three strategic directions for 2018-2023, which were approved by the Board, and a values subcommittee surveyed the entire college, including students, to narrow down its new values (TBA). The entire college is working diligently on defining its objectives, key outcomes and key measures based on information from the environmental scan, Convocations and Conversation Day activities, while keeping possible legislative changes in mind. Aims will continue to be transparent in its communication around its new strategic plan that will help build a stronger community.

Approximately 20 Aims’ Northern Colorado industry partners, 12 high school students who have interned in the applied technology field and 10 Aims employees discuss career and technical education with the senator.

August 7, 2017

Paul Harter, president and CEO of Aqua-Hot Heating Systems and chairman of the Northern Colorado Manufacturing Partnership (NoCO Partnership) speaks about Aims’ value during the TalentFOUND Sectors Summit 2017.
