Purpose & Concept

CrisisManager – Education smartphone / tablet application

• The Aims Emergency Operations Plan (EOP) is 96 pages.
• The Aims Emergency Action Guide is 16 pages.
• This app combines 115+ pages of College strategic emergency planning requirements and the necessary individual response procedures into an easily assessable, ready-to-go application for our students, faculty and staff that is available to them 24/7.
Major Functions and Benefits

✓ Provides all Aims personnel the “Cliff Notes” of our response information & procedures.

✓ Situational based response procedures.

  • *What do I do when....?*

✓ Once the app is downloaded and the plans are installed, you will have unlimited access to all Aims emergency procedures, even when cell service is interrupted.

*if cell service is interrupted, the in-app call service will not function, but you have access to all response procedures.*

    - Sexual Assault
Major Functions and Benefits

Sample

One-Touch call service

Dialled from within the app

*Smartphones only – no iPads / Tablets
Major Functions and Benefits

Quick Reference Hyperlinks

Definitions:

- **Watch**: Issued when conditions are favorable for the development of severe weather within or close to the watch/listening area. During a “watch” you should be prepared to move to a shelter if threatening weather approaches.
- **Advisory**: Is sort of in between a WATCH and WARNING. The expected weather condition has a pretty good chance of occurring, even a likely chance of occurring, but typically an advisory is used for “less” severe type of weather

Lightning Safety:

- Seek shelter immediately:
  - Inside a Building / Overhead Cover
  - Do not use appliances / telephones
  - Stay in your vehicle
- If unable to seek shelter:
  - Stay away from tall trees, telephone poles, and metal objects
  - Do not form in large groups
  - Stay out of water
  - Crouch down with only balls of feet touching ground (do not lay flat!)

Lightning Facts:

- 75 - 100 people are killed by lightning each year.
- Summer is peak season for lightning.

“Press & Jump” Capability
**Major Functions and Benefits**

**Active Shooter / Lockdown Procedures**

In any serious life threatening emergency, always call **9-1-1** and alert Campus Security.

*Watch the FBI’s Run-Hide-Fight video.*

How to respond if an active shooter is in your vicinity:

**RUN**
- If there is an escape path, attempt to evacuate. Help others escape if possible. Evacuate whether others agree or not.
- Leave your belongings behind.
- Prevent others from entering the area.
- Meet at a predetermined area, do not leave campus.
- Call **9-1-1** or Campus Security when you are safe.

**HIDE**

**Reporting Tools**

Sent to “security@aims.edu”
Major Functions and Benefits

**INITIAL ACTIONS CHECKLIST**

- Establish Incident Command Post (ICP) location and make known to all.
  - ICP Location: 

- Determine Need For / Recall TVAT Members.
  - Yes  No

- Gather information and explain the scope of the incident.
  
  - What happened?
  - Where did it happen?
  - Who reported it?
  - Any known special hazards?  Yes  No

**Hazing/Bullying**

*Bullying is a serious problem*

Bullying can include any behaviors initiated by one or more students against a victim that are deliberate and hurtful, and are repeated over time.

Individuals may be bullied physically, emotionally or verbally, socially or with a combination of these. Bullying may be seen as direct behaviors such as teasing, taunting, threatening, hitting or kicking, stealing or damaging things, calling names, picking on children, making them do things that they don't want to do, etc. It can also include indirect behaviors that cause a child to feel socially isolated. Examples of this type of bullying could be leaving the student out of activities, spreading rumors, making him/her feel uncomfortable or scared, telling nasty stories, not allowing the person to speak to other students or be spoken to, etc.

The key components of bullying are that it is:
