Connecting to a Wireless Network
This iPad is capable of connecting to wireless networks on the Aims Community College campus, at your home, or in a variety of public locations. To connect to a wireless network, follow these steps:

1. Go to Settings (usually on the Home Screen of the iPad)
2. Click on Wi-Fi on the left-hand side of the screen
3. Click on the wireless network to which you want to connect. Usually this is AIMS-SECURE-STUDENT

Please note: If the wireless network you are connecting to is unsecured, a message will appear stating “Information sent over this network might be visible to others.” Click the Connect button to continue.

4. You are now connected to the wireless network!

Saving Your Work:
Aims is not responsible for personal information left on this device. Information saved on the iPad will be deleted when the device is returned. Please plan accordingly.

Checkout Information and Policies
