AIMS COMMUNITY COLLEGE PROCEDURE

CHILDREN ON CAMPUS

Pursuant to Aims Community College Policy, all children on campus under the age of eighteen (18) must be under the direct supervision of a parent, legal guardian, or supervising adult and may not be on campus unattended, unless they are involved in a specific College approved and supervised activity, enrolled in classes, concurrent enrollment, or seeking to enroll.

Both staff and students must make off-campus arrangements for the care and supervision of children to reduce interruptions of the educational process and avoid possible injury to a child.

Children under the age of eighteen (18) are subject to the following:

1. Children may not be brought to the campus except for single day/evening emergencies or very brief convenience visits. (Scheduled school closings and consecutive-day problems are not considered emergencies.)
2. Children may not enter shops, labs, or other hazardous areas.
3. No child may attend classes with parents or legal guardian, unless permitted by an instructor for an educational purpose, and under no circumstances shall permission be granted on a continuous basis, such as, for an entire semester. Instructor approval must be in writing and include how the attendance is a material part of the instructional process.
4. A. The parent, legal guardian, or supervising adult will prevent disturbance, noise, and damage to property by the child when on campus as allowed by this procedure.
5. B. The parent, legal guardian, or supervising adult will promptly leave the classroom and/or campus with the child when requested to do so by a member of the College staff.

Individuals who bring children to campus and refuse to follow these guidelines will be referred to security or other college officials and are subject to student discipline or employee discipline where appropriate.
