AIMS COMMUNITY COLLEGE PROCEDURE

TIMELY WARNINGS

In an effort to ensure the safety and protection of all students and employees, Aims Community College shall implement devices to notify the campus community of impending danger or other emergency situations. The system is designed to notify individuals when a threat to their safety is present, as designated by the College President and/or the President's designated representative. These systems include, but are not limited to emergency text messages, phone calls, email messages, intercom communication, emergency radio communication, and the Alertus computer network alert message. Once Public Safety personnel are notified of an emergency, the information is verified and a coordinated effort to notify the campus community is implemented.

APPROVED: Dr. Marilynn Liddell
Aims Community College President
Date: November 9, 2009

Revised: November 18, 2013
