AIMS COMMUNITY COLLEGE PROCEDURE

USE OF SYSTEMS TO ENSURE INTEGRITY OF STUDENT WORK

Aims Community College may utilize systems, including software programs, for ensuring the integrity of submitted written student work.

When a software program, whose educational purpose is for ensuring the integrity of submitted student work is adopted by the College or division/department of the College, information regarding such use of educational software used for detection of integrity of submitted written work shall be included in any class/course syllabi/handbook or orientation in order to provide notice to students of use of such software. Faculty shall also communicate the consequences for students who choose not to use the educational software and/or systems, up to and potentially including failure of the assignment and/or course.

FINAL APPROVAL: Dr. Marsi Liddell
Aims Community College President
Date: August 29, 2012
