

Aims Community College

College for Kids 2023

Loveland Class Descriptions

AM Classes:

Active Aardvarks

Junior Aardvarks, get moving! Come see the excellent Physical Education and Recreational Center (PERC) at Aims and learn fun and amazing ways to stay fit and healthy. You will be on the move each day trying different activities which may include: soccer, basketball, volleyball, tennis, Ultimate Frisbee, yoga, fitness, leadership, and teamwork.

Animals Unleashed

Students will learn about different ecosystems and the species that call them home. We will look at well known and little known species and how they interact with each other. We will be doing a hands on labs or activity daily to help with these lessons.

Charizard's Japanese Adventures

Japanese is like coding! Within a week, students will be able to decode Pokémon cards in Japanese! This class offers students to learn Japanese language and culture through action related talk and play-based activities. Students can exchange greetings, sing songs, introduce themselves, and respond to simple instructions in Japanese at the end of the week. This class offers fun activities such as origami, chopstick game, and candy sushi making.

Color Lab

As young artists, you will have the opportunity to explore, discover and create using painting, mixed media and lots of colors! You will be exposed to different techniques, color theory, and endless creativity with new and exciting experiences in the world of painting.

Dino World

This summer, Dinosaurs will once again rule! Sign up for this one-week class and explore the wide world of Dinosaurs and other prehistoric animals. We will learn about the earth's natural history, how Dinosaurs continue to impact our culture today, and create Dino arts and crafts. Don't miss this summer program that was 65 million years in the making!

En Garde! Ready? Fence!

If you've ever wanted to learn how to sword fight like Jack Sparrow, Elizabeth Swann, Inigo

Montoya, or the Olympic fencers, this is the class for you! In just four days, you will learn proper footwork, blade techniques, and how to fence in a live match. All the equipment is provided, so you will have everything necessary to fence like the French and be safe doing it. ||Disclaimer: All gear and equipment will be disinfected in between classes in line with COVID-19 protocols. The instructor has practice cleaning supplies to ensure the health and safety of participants.

Finding Your Voice: Personal Storytelling

Do you love telling stories? Are you curious about how to make your personal experiences come alive for others? Join our fun and interactive personal storytelling class! Together, we'll explore the art of storytelling through writing, games, and group activities. We'll also listen to several exciting stories told by expert storytellers as inspiration. You'll learn how to create characters, set a scene, and craft a narrative that captures the attention of your audience. Plus, you'll gain confidence in presenting your own story in front of others in a supportive and encouraging environment. By the end of the class, you'll have the skills and tools to share your unique perspective with the world.

Hawaiian Island Creations

The Hawaiian Island Creations gives students the opportunity to learn about the Hawaiian Islands formation, different traditions and cultures, ideologies of Hawaii, myths and fact, and controversies. As being part of the United States, students will have the opportunity to understand how Hawaii went from a monarchy, to a territory, and end up as the 50th State of the US. We will learn a little about land formations, irrupt volcanoes, learn how to make leis and music instruments and have fun learning about the creation and present of the Hawaiian Islands.

Photography

Learn how to see (and capture) the beauty in everyday life! In this class, you will sharpen your existing photography skills and learn how to use a real DSLR camera under the supervision of a professional photographer. By the end of the week, you'll understand photography concepts like shutter speed, aperture, and ISO, as well as develop your artistic eye! We'll talk about what makes for good photography and have a chance to review photos we take throughout the week.

Planting & Gardening Exploration

Come and explore the basics of plant life merged with art activities! Students will have various opportunities with hands-on learning experiences, in order to explore the many elements of gardening and planting.

Take the Stage

Students will develop their acting talents as they learn various acting techniques, script writing, character creation, costume and set design. As a class, students will write, rehearse, and perform a play!

Ukulele for Beginners

Do you like music? Have you wanted to learn to play an instrument but felt overwhelmed? Join

Ukulele for Beginners to learn how to hold the uke and a pick, basic chords, and how to read music. We will learn songs, and perform class solos. Listening to different styles of Ukulele will help us find our own unique style. Join us, as we perfect our skills through practice and then show off at a fun concert on the final day of class!

Wilderness Survival

Our ancient ancestors were master bush-crafters. Living in Colorado we have access to 3.5 million acres of federally protected wilderness. Many of us have spent time camping and hiking throughout Colorado but how many of us could survive in this wilderness if we became lost or stranded? Wilderness Survival 101 teaches skills and strategies for dealing with unexpected and adverse circumstances. We will cover topics including: first aid, water sourcing and purification, navigation using a map and compass, fire craft, rope and knot skills, cooking methods, shelter building, 72-hour bags, clothing choices, food sources and the gear and tools necessary to survive in the wilderness.

YouthBiz Shark Tank

Calling all business bosses! Ever thought you had an idea for the next big thing? Ever wanted to start your own business and be your own boss? YouthBiz Shark Tank is for you! This camp will show you how to generate a business idea, or improve the one you already have, find out what you need to know to get started, make a model of your product, and prepare and present a professional business pitch, just like Shark Tank! On the last day of class, young business owners will pitch their businesses to a panel of judges, competing for the grand prize of \$100!

PM Classes:

Active Aardvarks

Junior Aardvarks, get moving! Come see the excellent Physical Education and Recreational Center (PERC) at Aims and learn fun and amazing ways to stay fit and healthy. You will be on the move each day trying different activities which may include: soccer, basketball, volleyball, tennis, Ultimate Frisbee, yoga, fitness, leadership, and teamwork.

American Sign Language

Sign Language isn't just a language, it's a whole culture! Come and learn about the fascinating world of American Sign Language where you will learn actual signs and the alphabet while practicing communicating with fellow classmates and then you can teach your family and friends your fun new skills!

Animals Unleashed

Students will learn about different ecosystems and the species that call them home. We will look at well known and little know species and how they interact with each other. We will be doing a hands on labs or activity daily to help with these lessons.

Art Exploration

Come and get your creative juices flowing in this unique art class where we'll be using several different mediums throughout the week. Some of the will include Clay sculpting, Paper Mache letters, Pour Painting, Tie Dye and more. You will even get to take home all of your art at the end of the week!

Charizard's Japanese Adventures

Japanese is like coding! Within a week, students will be able to decode Pokémon cards in Japanese! This class offers students to learn Japanese language and culture through action-related talk and play-based activities. Students can exchange greetings, sing songs, introduce themselves, and respond to simple instructions in Japanese at the end of the week.
