

ASSET & High School Graduation In-State Exception Request Form

Residency for tuition classification in the State of Colorado is governed by Colorado Revised Statutes §23-7-101, *et. Seq.* Although an individual may be considered a state resident for voting and other legal purposes after being in the state for a short period of time, Colorado has additional requirements a qualified individual must meet prior to classification as "in-state" for tuition purposes. The Colorado Commission on Higher Education (CCHE) has prepared detailed information that is available at <https://cdhe.colorado.gov/colorado-residency-statutes>

Residency statuses may only be changed prior to the first day of the first class in which the student is registered in the term the change is requested. For most students, this is the first day of the semester. Change requests submitted past the deadline may be denied for that reason.
